Programme

Welcome 6pm:

Mark Butcher, Winchester Rotary President

Talks:

What is AMR and is it the next big global health threat?

Professor Kordo Saeed

**Tackling AMR focusing on the One Health approach
(human, animal, and environmental health)**

Dr Danny Chambers MP

Q & A and Networking until 8pm

Winchester Rotarian Professor Kordo Saeed is a consultant clinical microbiologist at University Hospitals Southampton NHS Foundation Trust & Professor at the University of Southampton. His interests are infections in intensive care.

He is the chair of the Rapid Diagnostics and Biomarker Working Group of the International Society of Antimicrobial Chemotherapy (ISAC).

Dr. Danny Chambers is the Liberal Democrat member of Parliament for Winchester and a veterinary surgeon. He holds a Master of Science in Epidemiology and Infectious Disease Control. Danny has drawn on his expertise to bring attention to antimicrobial resistance, or AMR, and serves as secretary of the All-Party Parliamentary Group on AMR.

Proceeds from this event will go to support End Polio Now - a global campaign led by Rotary International and partners to eradicate polio.
